

Power Query

Online Training for
Excel and Power BI Professionals

by
Matt Allington
(Microsoft® MVP)

US\$250
12 months access

Benefits

- Same learning applies to Excel 2010+ and Power BI
- Learn to use power query quickly and efficiently
- More than 6 hours of high quality video training
- Follow along with the sample data so that you get hands on practice as you learn
- Full access to the video courses online for 12 months
- Quiz at the end of each lesson to reinforce the concepts covered in the lesson
- Self-paced training with time stamps provided for all the topics to go through any specific section anytime.

Why You Need This Training

Power Query is a fabulous 'new' tool that comes bundled with Excel and Power BI. It allows you to quickly and easily manipulate (shape and clean) data in ways you could never have imagined possible before. The concepts are new to most people, however any Excel user can learn the techniques and become a Power Query expert with this online training course.

Meet Your Trainer

The course has been developed by Matt Allington (Microsoft® MVP and author of the book *Learn to Write DAX*). He has an innate capability to make even complex things easy to understand. It is the quality of Matt's teaching style that has made his book the "must read first" among the data analyst community. Matt follows the same approach in this Online Power Query training course, introducing each concept in an 'easy to understand' way ensuring viewer's best learning experience.

MVP

Microsoft® Most Valuable Professional

Why Should I Purchase?

- It has been designed and created by Matt Allington (Microsoft® MVP).
- Matt is a true Power BI/Power Pivot/Power Query professional who understands business users AND the technology that can solve these problems i.e. he understands you and your problems.
 - The training is all "example based" using relevant real life scenarios to teach you the tricks.
 - All the examples in the course are available to download so you can do the exercises too. This will greatly assist your learning.
 - It is great value at US\$250 for 12 months access to the online materials.
